## RESEARCH PROJECTS

Scientific Manager	Prof. Antonio Punzi (s.s.d. IUS/20)
Summary description of the research project	<p>The Lisbon Strategy has been one of the key drivers for the R&amp;I agenda in Europe. To make the EU “the most competitive and dynamic knowledge-based economy in the world capable of sustainable economic growth with more and better jobs and greater social cohesion”, it was indeed vital to strengthen the nexus between education, research and innovation and make the “knowledge triangle” a reality for the EU. More recently, in 2019, the European Commission started to include transfer to society as the fourth mission and to replace the knowledge triangle with a square. In its communication on achieving the European Education Area by 2025, the European Commission emphasized the central role of higher education institutions to foster the knowledge square by investing on the so-called university alliances. It will be essential that the future investment pathway for university alliances is structurally supporting the nexus between education, research, innovation, and service to society – and thus overcoming the existing silos that still exist between these building blocks. The R&amp;I dimension of the alliances has been supported through a specific SwafS call in Horizon Europe which was discontinued. Can urban regeneration processes like the Urban Integrated Plan of the City of Rome for the Santa Maria della Pietà complex support the nexus? Particular relevance will be given to use-inspired basic research and Mediterranean / Global South oriented approaches.</p> <p>The fellow will carry out this research as a postdoc fellow of LabGov.City and/or of another research laboratory created ad hoc by researchers belonging to the law department and/or its R&amp;I or third mission/social impact projects, will have provision of a workstation in Viale Gorizia 17. The fellow will have to collaborate in the drafting of reports and research projects, in the collection and qualitative-quantitative analysis of data, in the drafting of at least n. 1 policy brief/report, co-authored by at least n. 1 publishable article in a high-impact international scientific journal, to the organization of at least n. 1 workshop or conference with scholars of the topic, policy-makers and relevant actors.
